**There has been some argument among your pals regarding music piracy. The following are some of the comments from your friends.**

**“We need to have our own music and films. It is rather disgusting to learn that almost all our songs are unoriginal”.**

**“My friends who work in resorts say that it is disgraceful to play pirated music when foreigners ask us to play our own music”.**

**“We got only ourselves to blame for this. We should not buy CDs and DVDs of those films and music albums which we think are copied from abroad”.**

**“Music runs in our blood. Despite having a small population, we have some really talented singers and musicians but we never appreciate our own music. It is the problem with our attitude”.**

**“It is not a great issue. Maldivian music industry is in infancy. We can’t compare our music industry with well established music industries abroad”.**

Write an article for your school magazine stating your views as regards this issue.
