

# INDIAN SCHOOL NIZWA - WORKSHEET

## COMPUTER SCIENCE CH:2 COMPUTER FUNDAMENTALS

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Class: VII Sec: \_\_\_\_

### I. Choose the correct option.

- Computer hardware is of no use without the \_\_\_\_\_ .  
a. Joystick      b. Keyboard      c. Software      d. DVD
- An input pointing device used in graphic environment  
a. Keyboard      b. Mouse      c. Joystick      d. lightpen
- A pointing device that looks like a pen.  
a. Keyboard      b. Mouse      c. Joystick      d. lightpen
- Which of these is not an input device  
a. Scanner      b. Light pen      c. Barcode reader      d. Printer
- Which of these is not an Output device  
a. VDU      b. Plotter      c. speaker      d. Touch screen
- An example for impact printer  
a. Inkjet      b. Dot Matrix      c. Laser      d. All of these
- CPU is placed on the \_\_\_\_\_ inside the CPU system  
a. Mother Board      b. Hard disk      c. RAM      d. ROM
- RAM of a computer is measured in \_\_\_\_\_  
a. GB      b) MB      c) KB      d) PB
- Which is the smallest storage device  
a. Hard disc      b) CD-ROM      c) Pen drive      d) lightpen
- Which of the following is not a storage device ?  
a. DVD      b) CD-ROM      c) Pen drive      d) lightpen
- A \_\_\_\_\_ cannot be modified or erased  
a. CD-R      b) CD-ROM      c) CD-RW      d) All of these

## INDIAN SCHOOL NIZWA - WORKSHEET

12. \_\_\_\_\_ is an example of application software.  
a. Unix   b. DOS   c. Excel   d. Linux

### III. Fill in the blanks:-

1. Computer system is made up of \_\_\_\_\_ and \_\_\_\_\_.
2. \_\_\_\_\_ software controls input and output devices.
3. Main Memory of computer is made of \_\_\_\_\_ and \_\_\_\_\_
4. The storage capacity of flash drive can go up to \_\_\_\_\_ GB or \_\_\_\_\_ GB
